## PREPARE/ENRICH Training Workshop

The NEW Customized Version 2009 (6th Version) is the most advanced couple assessment tool available.

- **Customized** - The online format automatically customizes itself to fit the unique stage (i.e., dating, engaged, or married) and structure (i.e., cohabiting, raising children, or creating a stepfamily) of each couple's relationship based on their answers to several background questions.
- **New Features** – The Customized Version includes: over 100 customized scales; a Couple's Work book with more than 20 feedback exercises; revised Facilitator Reports; a Couple's Report designed for couples to keep; new Personality Scales, a Stress Profile, and a Commitment section included with every inventory.
- **Faith-Based Options** - Facilitators can select between a standard or faith-based administration of the inventory (i.e., Catholic, Protestant, Jewish, Interfaith/Interchurch)
- **Many New Categories** - Cultural/Ethnic Issues, Forgiveness, Character Traits, Previous Marriage, and Becoming Parents

A computer analysis and report organizes the material for use in giving feedback to each couple.
